

Combined Offer:

Millimar C 1200 M + Inductive Probe P 2004 M

Set price

955.00 €

OSP 1,245.00 €

User-friendly duo for length measurement

The compact C 1200 M evaluation and display device, combined with the P 2004 M inductive probe, is the right choice if you want to measure lengths easily and precisely. At the same time, the C 1200 M offers maximum ergonomics and user-friendliness thanks to its equipment features. The reliable P 2004 M sensor is particularly suitable for thickness measurements, and when installed in a plug gage it can also be used for bore measurements.

Top features:

- High-resolution and high-contrast color display for reliable reading
- Continuously tiltable display for optimum viewing angle
- Extremely simple operation
- Mains or battery operation possible; battery operation also suitable for mobile use
- Millimar P 2004 M probe: high linearity over the entire measuring range and excellent electromagnetic shielding (EMC)

Order Nr.	C 1200 M Range of digital display	C 1200 M Resolution	C 1200 M Dynamic functions	P 2004 M Measuring range	P 2004 M Measuring force	P 2004 M Linearity deviation within +/- 0.5 mm
9107507	± 5,000 µm	0.1 µm	Max, Min, Max-Min	± 2,000 µm	0.75 N	0.4 µm

Promotion valid from 1 June 2021 to 30 June 2021 in Europe. Prices in other currencies on request. For commercial customers only.
